

Y6 Maths H/W

Area, perimeter and volume

A

Name _____

- 1 A rectangle is drawn on a centimetre grid.

What is the area of the rectangle? _____ cm^2

What is the perimeter of the rectangle? _____ cm

- 2 The perimeter of a rectangle is 18 cm. One of the sides is shown.

Complete the rectangle.

Percentage of an amount - multi-step

Rose Maths

- 1 a) Use the bar model to find 10% of 500

10% of 500 =

- b) Use your answer to part a) to help you complete the calculations.

20% of 500 = 70% of 500 =

90% of 500 = 60% of 500 =

30% of 500 = 100% of 500 =

- 2 Dora is finding percentages.

To find 5%, I can find 10% and then halve it.

Explain why Dora is correct.

- 3 Circle the shapes that have an area of 100 cm^2 .

- 4 Work out the area of each triangle. Remember to write the units with your answer.

- 3 Work out the percentages of the amounts.

a) 5% of 40 = d) 5% of 2,000 =

b) 5% of 400 = e) 5% of 6,000 =

c) 5% of 4,000 = f) 5% of 2,700 =

What do you notice about your answers?

- 4 Dexter and Alex are asked to find 75% of 340

- a) Use Dexter's method to find 75% of 340

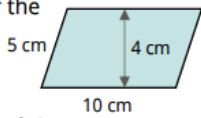

I will find 25% and multiply it by 3

- b) Use Alex's method to find 75% of 340

I will find 10% and multiply it by 7, then find 5% and add them together.

Are there any other methods you could use?

5 Max says that the area of the parallelogram is 50 cm^2 . 

What mistake has Max made?

What is the correct area of the parallelogram?

_____ cm^2

1 mark

6 Rectangles that have the same area have the same perimeter. 

Is Teddy correct? Explain your answer.

2 marks

7 What is the volume of the cuboid?

_____ cm^3

2 marks

5 Here are some percentages. 20% 90% 60% 15% 55% 40%

Talk to a partner about different methods for finding these percentages of an amount.

6 Calculate the percentages.

a) 20% of 1,000 = d) 15% of 1,000 =

20% of 550 = 15% of 300 =

20% of 40 = 15% of 30 =

b) 90% of 1,000 = e) 55% of 1,000 =

90% of 4,230 = 55% of 4,400 =

90% of 90 = 55% of 8 =

c) 60% of 1,000 = f) 40% of 1,000 =

60% of 400 = 40% of 400 =

60% of 98 = 40% of 98 =

8 Here is a plan of Mr Rose's garden. Mr Rose wants to build a fence around his garden. What is the length of fence needed?

9 Calculate the missing lengths.

What is the area of the shape?

7 Ron is calculating these percentages. 10% of 20 20% of 10

20% is double 10%, and 10 is half of 20, so I know these will both have the same answer.

Do you agree with Ron? _____

Explain your answer.

8 Here are two sets of percentage calculations.

20% of 40 = <input type="text"/>	25% of 60 = <input type="text"/>
40% of 20 = <input type="text"/>	60% of 25 = <input type="text"/>

a) Complete the calculations.

What do you notice about the answers?

b) Write two more sets of similar calculations and work out the answers.

What do you notice?

Does this always happen?

Talk about it with a partner.
