

English Flip Learning

Your child has learnt so many things about where they live 'London' this week!

They have looked at the world map and found United Kingdom! They also know that we live in the city 'London' which is in England.

Test your child and ask them the following questions to see if they remember everything they have learnt:

Where do we live on the world map?

How many areas is in the United Kingdom? (We called 'regions' areas as it was easier for children to understand)

Which area/region do we live in?

What is the name of our city?

Can you remember where the queen lives?

What is the longest river in England called?

What are the most popular famous food eaten in London?

What is the bridge called on the River Thames?

Did your child get them all correct? 👍
