To help you understand what we have been learning this week I would like you to complete the following questions into your homework book.

I would also like you to spend some time reading with an adult at home and to write this down in the reading record tracking sheet in the front of your homework book.

Remember homework is due in on **WEDNESDAY 11th JANUARY.**

Answer the following questions in your homework book.

Advice from a Dentist

10 It is very important to take good care of your
19 teeth. Strong and healthy teeth will help you to
29 chew and eat the right foods that will help you
38 to grow big and strong. Healthy teeth help you
42 to speak clearly, too.

52 After you eat, germs can stick to your teeth and
59 make something called plaque. Plaque can cause
70 holes to form in your teeth if it is not brushed
77 away regularly. Plaque can also make your
86 gums red and sore. If your gums are not
95 healthy, your teeth may start to wobble or fall
105 out. Make sure that you brush your teeth at least
114 twice per day to keep your mouth clean and
115 fresh.

Quick Questions

1. What can plaque do to your teeth?

2. Which two adjectives has the author used to describe how plaque can make your gums?

3. What might you find difficult if your gums are not healthy?

4. Number these sentences from 1 to 3 to show the order they appear in the text.
