

History Project

The Wright Brothers

The Wright Brothers

Next term KS1 for history will be learning about the Wright Brothers, but who were the Wright Brothers?

The Wright Brothers, Orville and Wilbur, were two brothers from Ohio who made history by inventing and flying the world's first successful airplane in 1903.

Here is a video explaining more about who the Wright Brothers were. Your task for this holiday is to create a poster about the Wright Brothers, explaining who they were.
